British Vending Excellence Since 1966

The Award winning interactive touch screen vending machine delivering High Street quality drinks, syrup shots, advertising and more...

Summer 2015

The award winning interactive touch screen vending machine delivering High Street quality drinks and more!

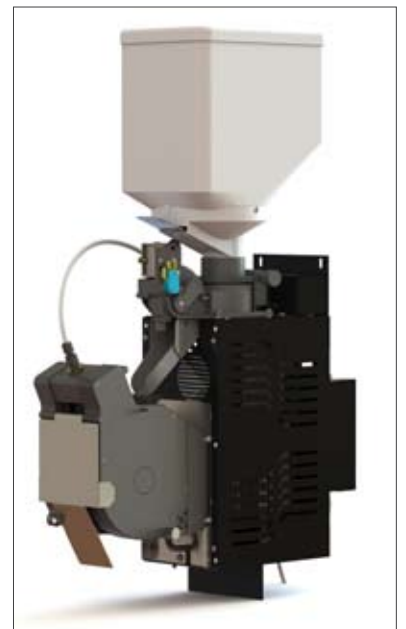

The Sigma Touch brings a whole new dimension to the provision of hot beverages thanks to the fully integrated, 19-inch high-definition interactive touch screen menu, amazing high resolution graphics and 9-bar pressurised espresso brewer.

The touch screen intuitively guides you through a variety of user-friendly menus in a variety of language options delivering coffee shop quality drinks whilst displaying high definition advertisements in between drink sales.

Whether you want to treat yourself to a hazelnut syrup shot from the 'build-your-own' drinks menu, promote your latest corporate message via USB and telemetry or generate revenue selling advertising space - the Sigma Touch will deliver the coffee shop experience and more...

Coffee and water - the perfect partnership

The NEW 9 bar pressurised espresso brewer

Features

- NEW 9-bar pressurised espresso brewer system for a purer extraction
- High-definition 19-inch touch screen with fully integrated speakers for high quality sound
- Intuitive touch sensitive menu selection with allergen display facility
- Opportunity to display your own corporate messages and promotions
- Dynamic "attention-grabbing" advertising when machine is not in use, helping to drive sales in nearby snack machines
- In-built WIFI GPRS telemetry - putting you in total control remotely
- Accessibility menu specially designed for wheelchair access below the 1.2 metre guideline
- Menus are supplied in four additional languages as well as English
- FREE audit software for downloading drink sales information to USB
- Energy management software reduces power use when inactive
- Single fresh brew, double fresh brew and wholebean / fresh brew models available
- Stylish, sleek looks with strong accent lighting in the drink dispense station
- Ideal for high footfall public sites i.e. airports, colleges and hospitals

Design your own drink

- Treat yourself with a hazelnut shot in your latte or a hint of vanilla in your flat white
- Add an extra sugar for those with a sweet tooth
- Use your own cup or mug - the cup sensor recognises when your cup is present

Language and accessibility

The Sigma Touch caters for a wide range of sites, users and user requirements and is particularly suited to high footfall public locations.

The choice of menus are available in four languages as well as English. French, German, Spanish and Russian drink titles and descriptions will lead consumers seamlessly through the drinks selection with no fuss, assistance or additional signage. Other languages can be added.

The Sigma Touch also offers an innovative menu for wheelchair users, offering the choice of a menu in the lower section of the screen with all touch selection buttons lower than 1.2 metres in height.

Accessibility menu

Advertising Opportunities

As well as delivering high quality drinks with the NEW pressurised espresso brewer, the Sigma Touch also offers revenue opportunities with its advertising and messaging capabilities.

The technology within the 19-inch touch screen allows a rolling series of high-definition advertisements which are screened in between drink sales, promoting products from nearby snack machines, advertising nearby facilities or services and displaying in-house corporate messages.

The machine becomes a focal point for all your advertisements and messages whilst attracting increased vending sales for you.

Customise the screen with your own branding

You can also customise your on-screen menus with your company identity or branding.

Simply add your adverts and logos via USB stick or telemetry and let the Sigma Touch become an essential marketing asset in promoting your business, products or services whilst at the same time serving delicious coffee shop quality drinks.
